Summary

With 6+ years in web design and front-end development, I've created responsive, cross-browser compatible sites using HTML5, CSS3, JavaScript, Angular, and Angular Material. Skilled at converting Adobe XD and PSD prototypes into high-quality code. Hold an MBM in Computer Management. Consistently meet project timelines. Seeking innovative front-end roles.

Work Experience

Shaurya Technosoft Pvt. Ltd, Pune, IN   2020-04 to Present

Front End Developer

- Designed, maintained, and resolved issues for diverse government and management projects.
- Ensured cross-browser compatibility for consistent user experiences.
- Converted Adobe XD designs to high-quality, accurate HTML.
- Developed responsive, mobile-friendly website designs.
- Built front-end pages using HTML5, CSS3, JavaScript, Angular, and Angular Material.
- Integrated modern design principles with advanced front-end techniques for optimal performance and usability.

Imuons Web Solutions Pvt. Ltd, Pune, IN   2019-02 to 2020-02

Web Designer

- Developed dynamic, interactive websites across finance, industrial, and educational sectors, improving UX, traffic, and page views.
- Designed responsive, cross-platform websites for seamless accessibility and performance.
- Implemented visually appealing layouts via advanced PSD to HTML conversion and design best practices.
- Produced user-centric designs meeting industry standards and client requirements.
- Collaborated effectively within teams, incorporating feedback and meeting project deadlines.
- Enhanced the company's web design portfolio with consistently high-quality projects.
